FLOODLIGHTING

High level lighting (6 lamps) - 1 token for 30 mins, 2 tokens for 1 hour.

Low level lighting (4 corner lamps) – 1 token for 1 hour.

Floodlighting is programmed to go off at 9pm.

Please adhere promptly to change over times. (There is a 10 - 15 min cool off and warm up time once the lights have gone out so it is best, at change over times, to insert tokens before lights go out.)

Users of the final session (8-9 pm) should note that lights will go off at 9pm sharp and we advise that the facility is vacated at 8:55pm to facilitate the departure under floodlit conditions. There is no lighting available in the car park or on the path from the MUGA to the car park. A torch is recommended.
